Dear Allison

Words cannot describe the enormous gratitude that we all feel towards WOMAC and all the hard work that has led to the incredible donation of £29,000, which has been paid into my Research Fund held here at the Royal Marsden. Such a substantial donation will make a real difference to what we can achieve in the next twelve months, hopefully pushing forward the frontiers of research into lymphoma. As a disease, lymphoma is for reasons we do not fully understand increasing in incidence in the UK and although we can already do a great deal for many patients with this condition, there are still some patients for whom the cure is elusive. Our objective is to improve the cure rates as soon as possible and as much as possible. Please extend my thanks to everyone at WOMAC for their hard work, commitment and extraordinary generosity.

This has all been an incredible tribute to Russell.

Kind regards
Yours sincerely

Professor David Cunningham MD FRCP
Consultant Medical Oncologist
Specialist in Gastrointestinal Cancer and Lymphoma
